RESPONSE

Assistant Commissioner for Patents
Washington, DC 20231

This is responsive to the outstanding Office Action mailed 11/06/01, and identified as paper number 2. Reconsideration and allowance of this application is respectfully solicited in view of the following amendments and remarks.

AMENDMENTS

Please amend the claims as shown in "redline" on the companion sheets to read as follows:

1. A method of mapping a volumetric electrical potential distribution of a heart chamber arising from electrical activation in a myocardium comprising the steps of:
 - a) positioning an electrode array within the heart chamber;
 - b) determining heart chamber volume and shape;
 - c) computing the position of said array within said heart chamber;
 - d) measuring electrical potentials on said array;
